Letter to parents and guardians regarding the vaccination of children aged 12 years and older

The Chief Health Officer has shared the following letter with BGS Headmaster Anthony Micallef and other school leaders across Queensland to urge you and your family (including all children aged 12 years and older) to take the opportunity over the upcoming school holidays to get vaccinated for COVID-19.

Children aged 12 years and older can receive a Pfizer COVID-19 vaccine at a Queensland Health vaccination location or at a participating General Practice (GP). In the very near future, you will be able to access Moderna (Spikevax) vaccine at a participating community pharmacy.

How to book

1. Register your interest [here](#) to receive your COVID-19 vaccine at a Queensland Health vaccination location. If you need assistance with vaccination bookings, call 134 COVID (13 42 68).
 - a. Older children can register themselves separately if they have their own email address or
 - b. A parent/guardian can register and set up their children as dependents. All correspondence will be managed through the parent/guardian's email address. Read more about creating a dependent in the vaccine booking system [here](#).
2. Access the COVID-19 Vaccine Eligibility Checker [here](#) to book a vaccination at a participating GP or community pharmacy.

Walk in opportunities

Walk in appointments are currently available at selected Queensland Health vaccination locations. To find your closest walk in vaccination location, please visit this [webpage](#).

Consent

For young people, consent from a parent/guardian is usually required. In Queensland:

- individuals aged 12 to 15 years may require a parent/guardian to provide consent, however may be mature enough to provide informed consent
- individuals aged 16 years and older are generally deemed to have capacity to consent for vaccination.

It is recommended that children under the age of 16 have a parent/guardian with them at their vaccination appointment. Young people seeking to provide informed consent themselves, without parental consent, should speak to their vaccinating clinician.

Find out more about age of consent for vaccinations [here](#).

Additional information and support

For more information about the COVID-19 vaccine and children, please visit Queensland Health's website for children, young people and parents [here](#).

General information about the vaccine is also available in multiple languages [here](#).

If you need an interpreter to book your vaccination appointment, call 13 42 68 and ask to be connected to an interpreter. If an interpreter is needed to phone this service, first call the Translating and Interpreting Service on 13 14 50 and they can connect you.

If an interpreter is needed at the vaccine appointment, advise a staff member when you arrive at the vaccination location so they can arrange this for you. This is a free service.

Thank you for your cooperation to keep Queensland and our school communities safe.
